Aspire
INSTITUTE

Transforming the lives of first-generation college students around the world.

October 14, 2025

To Whom It May Concern:

It is our pleasure to acknowledge the efforts of Esha Zaman in the Aspire Leaders Program at the Aspire Institute, a nonprofit organization that evolved from its predecessor initiative founded at Harvard University. The Aspire Institute provides leadership and social entrepreneurship education to tens of thousands of low-income, first-generation college students and other underserved young graduates in more than 180 countries, empowering them to make an impact across various fields.

The Aspire Leaders Program consists of two modules designed to equip participants with critical leadership and problem-solving skills. Module 1 focuses on personal and professional development through a strengths-based leadership assessment and career-building resources co-created with Harvard Business School. Module 2 explores leadership, trust, AI, and community impact through the Aspire Horizons Course, designed and delivered by Harvard faculty. Esha was among the 9,362 finalists who successfully completed the program out of 45,228 students in Cohort 4 of the 2025 program year.

We celebrate Esha's dedication and achievement in completing this rigorous program and look forward to seeing the impact they will make as a leader in their community and beyond.

Sincerely,
The Aspire Team
